

# Master of Project Academy

## Peak Project Performance Programs

## Organizational alignment on project management yields +28% improvements in delivery

- ❖ Project Overruns Three Main Causes
  - **Misaligned Expectations** - **persistent miscommunications** due to inconsistent project vocabulary
  - **Escalation failure** - **reporting inconstancy** fails to identify resources needed to deliver to schedule and budget
  - **Resource constraints** - **time/resource/dependency** planning is under developed
  
- ❖ Project Performance Improvement Programs
  - Establish and communicate a standard framework
  - Project management fundamentals are understood by all project team members
  - Reporting and controls are consistent across the organization

The **secret of success** inside the business is **people alignment**.

We've helped **200,000+ professionals** - we can enhance your resources' capabilities too...

We have three main corporate training programs

## PM Foundations
